- 2 Roles and Responsibilities of PTSMC
- 3 Role of teacher in school management
- 4 Making a school model
- 5 Disaster management risk

### PROCEEDINGS

Two days PTSMC training was conducted in GGHS Bonistan, as usual the training was started at 9 O clock in morning with welcome of participants, then a member of PTSMC recited the holy Quran and each participant's including trainers introduced themselves, the introduction was done by telling two weakness and two achievement of life of each participants. Then pre-test was taken to the participants of training, and did 15 minutes tea break. Soon after tea break the training was started again as per agenda and modules, the roles and responsibilities of PTSMC were discussed, the trainees trained them well regarding the roles

and responsibilities of PTSMC for school, who to manage the school, how to make it a model school and how and when conduct the monthly meeting with record keeping etc.

So the trainees were taking keen interest and they asked good questions during the session, also they did groups work and sometimes good games were played for refreshment of trainees.

At around two O'clock at noon the lunch break was called, and soon after lunch and prayer the training started, as usual the trainer's uses their experience and knowledge to train the PTSMC members so that they may be very much clear to the roles and responsibilities of them.

So the first day training came to end at 5 o'clock in evening and the next day was also processed at the same procedure, at the end of second day post-test were taken to the participants and two days training came to its end.
